

School District 84 (Vancouver Island West): Planning Framework for Enhancing Student Learning

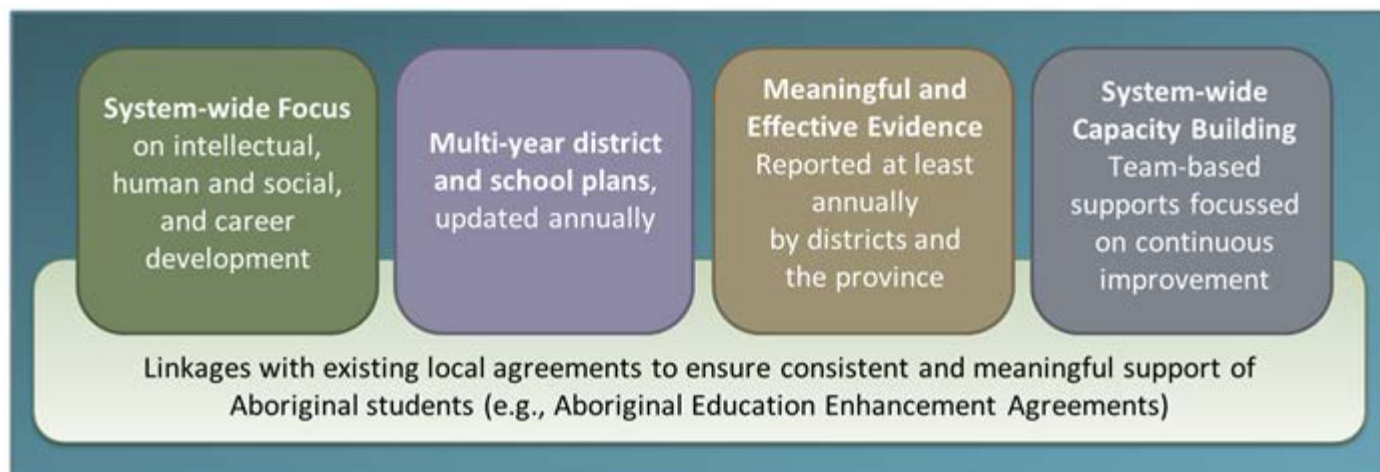

Provincial Background:

This past year, provincial education partners worked together to improve school district and school planning and reporting requirements of boards of education for enhancing student learning in BC's public school system.

BC's draft *Framework for Enhancing Student Learning* reflects a public commitment by education partners to work together to continuously improve student learning for each student, and to address long-standing differences in performance amongst particular groups of students, most notably Aboriginal students, children in care, and students with special needs.

An overview of the draft *Framework* is being shared to inform the development of a final policy document in May 2016 and to facilitate transition to new locally-developed school district and school planning efforts for the 2016/17 school year.

Elements of the Framework:

By March 2016, school districts will develop and post their annual district and school planning process

The full provincial outline is available at:

<http://www2.gov.bc.ca/gov/content/education-training/administration/kindergarten-to-grade-12/enhancing-student-learning>

SD84 Annual District and School Planning Process:

SD84 will continue with our long established consultation and planning processes in order to develop meaningful, integrated, multi-year plans at both the school and district level. These plans will continue to engage our students, staff and communities to determine meaningful learning structures, supports and measures of success.

Specific consultation and planning structures in SD84 include:

- Bi-monthly First Nations Education Liaison Committee meetings
- Monthly Working Relation Committee (Teachers) meetings
- Regular Labour Management (CUPE) meetings
- Semi-annual Community Consultations
- Staff Meetings
- Parent Advisory Councils
- Student Forums

When complete, the plans and evidence of success, as outlined under the new Provincial Framework and developed through our existing structures, will be posted on the SD84 web site at: www.sd84.bc.ca during the 2016/2017 school year.
