

## Classroom Grab-n-Go Kits

It's important that each classroom be equipped with a portable emergency kit that can be used in the classroom or taken with the class in an evacuation.

Use a tote bag or small backpack to store the following items:

- small first aid kit (for minor injuries)
- flashlight and batteries
- garbage bags or poncho (one per student) for rain shelter (if these are not included in the comfort kit)
- laminated class list and clipboard
- pencils and notepad
- indelible felt pen
- identity vest or neon hat for teacher
- card listing teacher's roles and responsibilities
- crowbar
- leather work gloves
- dust masks
- individual student comfort kits (elementary schools only)
